## HIGHER POSTAGE RATE BECAME EFFECTIVE LAST NIGHT

Patrons of the United States pos-  
tal service are urged to take notice  
of the increased postage rates which  
became effective today. The increase  
is a war-time measure, and the  
means of enabling the public to pa-  
triotically "do their bit" for the na-  
tion. It corresponds in nature to the  
war-time tax being placed on various  
other means of public service and  
will be strictly enforced. Letters  
placed in boxes here for local deliv-  
ery will be carried at the old rate  
of 2 cents an ounce or fraction there-  
of, while letters mailed in this city  
for delivery outside the city must  
bear 3 cents postage. All postal cards  
and post cards bearing written mes-  
sages require 2 cents postage.

Vote for EASTON for Mayor, the  
man who will fix your streets and  
keep them clean.

of the food that can be shipped to

## ITALY CHECKS TEUTON DRIVE ON RIVER LINE

Berlin Admits Advance Has Halted,  
But Claims 60,000 Men Captured  
—Flanking Move Feared—  
British Premier Sends  
Word England Will  
Help in Repul-  
ing Huns.

London, November 1—Austro-Ger-  
man forces have reached practically  
the line of General Tagliamento Riv-  
er defenses and have been checked  
there in their forward advance, ac-  
cording to the interpretation placed  
here this afternoon on Berlin's own  
official statement.

The German official claimed, how-  
ever, that 60,000 Italian soldiers  
"laid down their arms east of the  
lower Tagliamento."

It announced the total of prison-  
ers taken in the great Italian drive  
had now reached 130,000 men and  
1500 guns were taken.

The greatest menace to Italy's  
safety indicated in despatches today  
was the flanking move well under  
way near the Carnic Alps, directed  
by an Austrian army under General  
Von Krobath.

World Force Further Retreat  
This force is making a desperate  
thrust to turn the Italian positions  
on the upper course of the Taglia-  
mento.

Success of such an operation would  
threaten the whole Tagliamento line  
and force a further Italian retire-  
ment, possibly to the line of the Piave  
River.

According to the Berlin version,  
the invading forces already have  
captured 120,000 Italians and 1000  
guns. Today is the ninth day of  
the drive.

## Beersheba Is Captured By British Army

London, November 1—The city of  
Beersheba, in Palestine, has been  
captured by the British. It is an-  
nounced officially.

Indications from Palestine are that  
with the advent of good weather the  
British are resuming their active  
campaign up the Syrian coast. The  
capture by British troops of Beer-  
sheba, approximately forty miles  
in an official statement today.

When the operations in Palestine  
halted last spring the British had  
pushed up the coast from the Sinai  
peninsula to the gates of Gaza, on  
the coast in Southern Palestine,  
while in Interior Palestine their col-  
umns had advanced on a virtually  
parallel front, to the vicinity of  
Beersheba. There were reports that  
there had been a penetration as far  
northward as Hebron, which is less  
than twenty miles from Jerusalem,  
but apparently there was no definite  
advance of the British main force to  
this point.  
Reports early last month stated  
that the British and revolting Arab  
forces from the southern interior had  
effected a junction in Southern Pale-  
stine, and that combined operations by  
these forces against the Turks might  
be expected shortly.

## MEAT HOUSE AND CELLAR

Some people have taken up the  
foolish idea that the government is  
going to confiscate a part of our meat  
house and cellar supplies. There is  
no foundation for this apprehension.  
Read what F. M. SACKETT, Federal  
Food Administrator for Kentucky has  
given out for publication:  
"There is absolutely no truth in the  
story that is being given circulation,  
by persons unfriendly to their coun-  
try's cause, that signers of the Food  
Conservation Pledge Cards this week  
are in danger of having part of their  
canned goods confiscated by the Gov-  
ernment. This rumor has been re-  
peatedly denied by the Food Admin-  
istration, but apparently it persists.  
It is a pro-German propaganda, and  
persons circulating it are giving aid  
and comfort to the cause of Ameri-  
ca's enemies."

"F. M. SACKETT,  
Federal Food Admr., Kentucky."

THOMAS M. RUSSELL for Mayor.

## BIG PRICE FOR FARM

Joe Perraut, formerly of the Min-  
erva vicinity, recently sold to Lee  
Houston, of Harrison county, his 302  
acre farm in Bourbon county, at a  
reported price of \$150 per acre. It  
is said that Mr. Perraut cleaned up  
\$9,000 on the sale of this farm, and  
owned it less than one year, besides  
having 40,000 pounds of tobacco  
which was raised on the farm this  
year.

## DIED IN LEXINGTON

The remains of James H. Shroufe,  
who died at the Good Samaritan Hos-  
pital in Lexington Wednesday, were  
brought to this city yesterday and  
taken to the undertaking parlors of  
Mollavin, Knox & Diner. The re-  
mains were taken to Dover for bur-  
ial yesterday afternoon. The body  
was accompanied here by Mrs. B. P.  
Matthews, close of the deceased.

## HARRY C. CURRAN FOR MAYOR. NO JAP TROOPS GO TO EUROPE

A Pacific Port, November 1—Baron  
Tanetaro Megata, head of the Jap-  
anese financial commission that has  
arrived here, said today it was im-  
possible for Japan to send an army  
to aid the Allies on the European bat-  
tle front.

"If in the face of physical impos-  
sibility, Japan should be foolhardy  
enough to make a superhuman effort  
to send troops and if she speedily be-  
came exhausted," he asked, "who  
would then protect the Orient if Ger-  
many remained undefeated?"

"Though we have sent no troops  
to Europe we have helped in other  
ways. Our navy is serving the allied  
cause in the Mediterranean and the  
Indian ocean and our merchant mar-  
ine is largely at the disposal of the  
Allies, Japanese ships do practically  
all of the carrying between Asia and  
Europe."

Baron Megata said that the great  
distance and the condition of the  
trans-Siberian railroad stood in the  
way of sending troops to Russia, for  
once sent there they could not be sup-  
plied.

THOMAS M. RUSSELL for Mayor.

## FOOD LICENSES

Began Yesterday—100,000 Dealers to  
Be Under Hoover's Direction—  
Small Retailers to be Con-  
trolled Through Whole-  
salers—Co-operation  
Required.

Washington, November 1—One  
hundred thousand manufacturers,  
Wholesalers and other distributors of  
staple food will be placed under li-  
cense today by the Food Administra-  
tion for the duration of the war. No  
licenses have yet been mailed, but it  
was announced that those who have  
sought licenses need not be appre-  
hensive unless they violate the food  
control act.

Nearly 50,000 application blanks  
already have been called for by deal-  
ers and requests have been filed out  
and will be mailed to affected deal-  
ers as soon as booklets containing  
complete rules and regulations for  
the guidance of licensees have been re-  
ceived from the printer.

The Food Administration estimates  
that when the lists are complete  
there will be about 100,000 licensees,  
including importers, packers, can-  
ners, manufacturers, wholesalers,  
commission men, brokers, auction-  
eers, storage warehousemen, togeth-  
er with retailers doing more than  
\$100,000 business annually, which  
embraces mail-order firms and chain  
stores.

Small retailers will not be licensed,  
but they are subject to the provi-  
sions of the food law itself, which for-  
bids speculation, hoarding and ex-  
cessive profits. They also will be  
controlled through the licensing regu-  
lations controlling wholesalers,  
who will be required to cut off the  
supplies of dealers of any size, and in  
any branch of the trade, who exact  
exorbitant profits on the necessities  
of life.

The purposes of licensing are  
stated as follows:  
"First—To limit the prices charged  
by every licensee to a reasonable  
amount over expenses, and forbid the  
acquisition of speculative profits from  
a rising market.

"Second—To keep all food com-  
modities moving in as direct a line  
and with as little delay as practicable  
to the consumer.

"Third—To limit as far as prac-  
ticable contracts for future delivery  
and dealings in future contracts."

## GERMANY STILL IN POLITICAL TURMOIL

London, November 1—Count George  
von Hertling has been rejected as Im-  
perial chancellor by the Reichstag  
majority leaders, according to special  
dispatches from Amsterdam, which  
construe this as a rebuff to the em-  
peror and a victory for parliamen-  
tarism.

The messages, however, apparently  
were written before the German  
wireless statement was sent out yes-  
terday announcing that von Hertling  
had been offered the place and was  
consulting with Reichstag leaders.  
A dispatch to the Daily Express  
says that von Hertling had conferred  
with the leaders and they opposed  
his appointment because he was  
against the Reichstag for peace with-  
out annexations and the democratic  
parliamentary system.

There is every indication, how-  
ever, that the total will approximate  
\$5,000,000,000, an over-subscrip-  
tion of \$2,000,000,000 of the minimum asked  
for.

## SNAKE CLUBS

There are now "snake clubs" in many American communities. Their purpose is not, as the thoughtless reader might imagine, to kill snakes. It's to study snakes for the sake of appreciating and preserving them. The snake club is much like the bird club in spirit and method.

And why should anybody want to study and preserve snakes? Because, the naturalists reply, the serpent is one of man's greatest benefactors. He suffers from an unjust prejudice, due partly to the Adamite tradition and partly to an instinctive dislike that runs back into prehistoric ages, when our cave-ancestors found him an unpleasant bedfellow.

To modern civilized man, the snake is demonstrably a friend. Of the whole 111 varieties found in America only 17 are said to be venomous, and none of them will bother a human being who doesn't bother them. Their virtues are more than passive. They war against such real enemies of mankind as rats, mice and other rodents that eat grain and injure many of our valuable crops.

The German foreign secretary said lately that Alsace-Lorraine is now the only obstacle to peace. If that's so, asks a cynical American editor, why should Austria, Turkey and Bulgaria go on fighting? What's Alsace-Lorraine to them?

charges growing out of moderate as-

by hired political slugs in the re-

the early age of 13 Mr. Smith began  
his business career as a messenger

rose to a clerkship, which he left in  
time to become connected with an in-

became vice president. In early  
manhood he engaged actively in Re-  
publican politics, and was successively  
a member of the Philadelphia com-

and a public service commissioner be-  
fore his election to the mayoralty in  
1915.

## WHAT THE KAISER KNOWS

The Government's food pledge asks very little of the individual American. "So little in fact that there is grave danger the individual will overlook the importance of doing that little, day in and day out, over a period, if necessary, of years.  
But when the Kaiser heard of this food conservation by individual Americans, he considered the movement such a menace to German victory that he spent large amounts of money and employed large numbers of agents in this country to frustrate it.

What is important enough for the Kaiser to spend time and money to prevent is important enough for every individual American citizen to help to accomplish. Food will win the war; America must supply it.

But it is only by strict, painstaking, daily attention to the Government's very modest request that we Americans can insure the success of the war food conservation campaign. Each individual's part is so small as to seem trivial, but the total, if every one does his part, will be tremendous.

The Kaiser knows in his heart that if every one of America's 100 million souls eats a pound less wheat flour a week America will have a badly needed extra 133,000,000 bushels of wheat to ship to its European allies.

He knows that if each of us eats one-third of an ounce less meat fats every day we'll have 395,000 tons more fats a year for the war.

He knows that if each of us eats an ounce less sugar a day we'll have 1,185,000 tons more sugar a year.

He knows that if we individual Americans DO save these things, Allied Europe's hungry will be fed and kept contented in the fight against his starving hordes; and that he, therefore hasn't a chance to win the war.

He was smart enough to realize that if his agents in this country could sneer the food saving idea out of the individual American's mind he would stand a mighty good chance to win the war.

DON'T LET THE KAISER TALK YOU OUT OF DOING YOUR LITTLE BIT OF FOOD CONSERVATION DUTY EVERY DAY. During the week of October 23 join with the other millions of Americans who by banding together, each performing his own small part, are going to ensure victory in the world war for democracy.

An authority estimates the number of known languages and dialects at 3,424.

## A TREATMENT FOR NERVES

Woman Tells How Lydia E. Pinkham's Vegetable Compound Helped Her.

West Danby, N. Y.—"I have had nervous trouble all my life until I took Lydia E. Pinkham's Vegetable Compound for nerves and for female troubles and it straightened me out in good shape. I work nearly all the time, as we live on a farm and I have four girls. I do all my sewing and other work with their help, so it shows that I stand it real well. I took the Compound when my ten year old daughter came and it helped me a lot. I keep it in the house all the time and recommend it."—Mrs. DEWITT SINCEBAUGH, West Danby, N. Y.

Sleeplessness, nervousness, irritability, backache, headaches, dragging sensations, all point to female derangements which may be overcome by Lydia E. Pinkham's Vegetable Compound. This famous remedy, the medicinal ingredients of which are derived from choice roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

More tobacco is smoked per head in the United States than in any other country except Holland.

Petrograd, November 1—Russia entered the war early and she is now worn out by the strain, asserts Premier Kerensky. He said that Russia claims as her right that the other allies now should shoulder the burden of the war.

Premier Kerensky declared that Russian public opinion was agitated by the question: "Where is the British fleet now that the German fleet is out in the Baltic?"

### FIRST BATTALIONS

Of U. S. in Trenches Are Relieved By Others—Relief, Considered One of Most Critical Periods Was Accomplished Successfully—Casualties Said to Be Negligible.

With the American Army in France, November 1—The first battalions of Americans in the trenches have been relieved by others. Relief, which is considered one of the critical periods, when the enemy by shelling the approaches to the positions may inflict heavy damages was accomplished was not aware of what was going on.

With the men back in billets, it now is permitted to mention for the first time that the casualties were negligible. In fact, more men are suffering with "trench feet" than with wounds.

From a military standpoint the experience gained by the Americans is considered of a very high value in the training of contingents which are yet to arrive on French soil. It was a tired, dirty, wet mud-caked body of men that returned to billets. The men had only two clear days while in the trenches. They were mud from their hats to their shoes. Before anything else, they required a bath, first with gasoline and then with water.

Today the sun was shining brightly and the returned soldiers spent most of the time sunning themselves and their belongings. Some of the fields in this section of France are covered with blankets, parts of uniforms and equipment. Clouds of red dust arose in these places when later the owners started to brush. Tonight the returned battalions are clean and ready to go back again.

## THOMAS M. RUSSELL for Mayor, NEGRO TROOPERS ARRAIGNED FOR HOUSTON RIOTS

San Antonio, Texas, November 1—Sixty-three negro soldiers of the Twenty-Fourth infantry, were placed on court-martial trial here today on charges of mutiny, murder, rioting in Houston on the night of August 23. The members of the regiment were on guard duty at Camp Logan, Houston, at the time of the riot during which twenty-two lives were lost.

Major K. G. Snow testified that the negroes became incensed at a report that Corporal Charles W. Baltimore, a negro, had been killed in an altercation with Houston police. The major said he had advised them that Baltimore had not been killed and all so warned them against any acts of resentment.

## ATTACK ON BIGELOW ANGERED LA FOLLETTE

Washington, November 1—Senator LaFollette made public tonight a letter he had written to Herbert S. Bigelow, the Cincinnati Socialist, recently whipped by a mob for alleged disloyal expressions. The senator denounced the whipping as "an attack upon the liberty of every citizen of this republic," and said if "as press reports indicate," officials charged with the administration of justice failed in their duty, other means would be found to unmask and punish those who made the attack.

## DAUGHTERS OF CONFEDERACY

The regular monthly meeting of the Daughters of the Confederacy will be with Mrs. Malthy on Saturday, November 10, instead of the usual Tuesday. It will be an all-day meeting. A Hoover luncheon will be served and Red Cross work will be the order of the day. All members are invited and urged to attend.

Mrs. Mary Noyes Conley of Abland is visiting Miss Jennie Clarke.

### HOOVER'S GOIN' TO GET YOU

(By Mabel L. Clapp)

The darned old Hoover pledge has come to our house to stay. To brown our breakfast bacon down, and take our steak away; It came our morning waffles, and our sausage too, it seems, And dilates on the succulence of corn and spuds and beans. So skip the sugar in your cake and leave the butter out Or Hoover's goin' to get you if you Don't watch out!

Oh gosh now are the good old days of hot cakes thickly spread; And meatless, wheatless, hopeless days are reigning in their stead; And gone the days of fat rib roasts and two inch T-bone steaks, And doughnuts plump and golden brown, the kind that mother makes.

And when it comes to pie and cake just learn to cut it out Or Hoover's goin' to get you if you Don't watch out!

So spread your buckwheats sparingly, and peel your taters thin; And tighten up your belt a notch and don't forget to grin. And if, sometimes, your whole soul yearns for shortcake high and wide And biscuits drenched with honey and chicken, butter fried, Remember then that Kaiser Bill is short on sauerkraut, And Hoover's goin' to get him if we'll All help out!

### BAGGED THE WRONG GOOSE

Augusta Chronicle: Since the advent of the "Meatless days," Councilman W. A. Work has hit upon a novel plan of supplying his table without breaking any of the rules laid down by Herbert Hoover. At this time of the year many wild fowls can be found along the banks of the Ohio river, and during the past several days Mr. Work has shouldered his trusty shotgun a number of times. One day he bagged thirteen "butter ball" ducks and a "wild goose." He distributed the ducks to his friends but saved the goose for his own use last Sunday. Mrs. Work took time by the forelock and put the bird on to cook Saturday at noon, yet when the noon hour arrived Sunday the goose was far from being ready to serve, and Mrs. Work is now of the opinion that it was one of the original pair that was in Noah's ark. But strange to relate, a well-known citizen of Ohio, living just above Boude's Ferry, has missed his pet goose, and there are quite a number who are of the opinion that Councilman Work made a grave mistake when he bagged his "wild" goose.

The frontier line between Canada and the United States is the only "undefended" frontier in the world.
